Q1. Discuss in brief about the decision making in Periodontal Surgeries. 25
Q2. Describe Esthetic Periodontal treatments in detail. 25
Q3. Write Essays On:
   a. Bone remodeling
   c. Local Drug Delivery
   d. Periodontal Splints
   e. Suturing materials in Periodontal Surgery

Max. Marks: 100
Instructions:

- Draw labeled diagrams wherever necessary
- Do not write anything on the question paper other than your Hall Ticket No. on top left

1. Discuss in detail about the factors which affect the osseointegration of implants. [25 Marks]

2. Role of periodontal microsurgery-critically evaluate [25 Marks]

3. Write short notes on:
   - A. Guided pocket recolonization
   - B. Decision making in the treatment of ridge defects
   - C. Maxillary sinus lift
   - D. Treatment of combined lesion
   - E. Chemical plaque control [10 marks each= 50 Marks]
M.D.S. DEGREE EXAMINATION, 2022

(PART- II)

(PERIODONTOLOGY)

13. PERIODONTAL DIAGNOSIS, THERAPY AND ORAL IMPLANTOLOGY

May

Maximum: 100 Marks

Answer ALL questions
Draw neat and labelled diagrams wherever necessary

(Time: 3 Hours

Essay: (2 x 25 = 50)

1. Describe in detail the advanced microbiological diagnostic methods for periodontal disease.
2. Critically evaluate the role of Resective osseous surgery in Periodontal therapy.

Write short notes: (5 x 10 = 50)

3. Biological aspects of implants.
4. Chemotherapeutic agents for periodontal therapy.
5. Biomarkers in Periodontal disease.
6. Conventional and modified techniques of connective tissue graft.
7. Melcher's concept.
Bareilly International University, Bareilly

Paper Code: 12217
MDS University Examination – May 2022
Periodontology
Third Year
Second Paper
Periodontal Diagnosis, Therapy and Oral Implantology

TIME: 3 hours
Maximum marks: 100

Note: Attempt all questions. Question No. 1 and 2 (Long Questions) carrying 25 marks each and Question Nos. 3 to 7 (Short Questions) carrying 10 marks each.

Long Questions-

Q.1. Discuss in detail the advanced diagnostic aids in the diagnosis of periodontal disease.

Q.2. Discuss in detail the gingival recession coverage procedures.

Short Questions-

Q.3. Role of magnification system in periodontal therapy

Q.4. Management of halitosis

Q.5. Periodontal splints in periodontal therapy

Q.6. Management of peri-implantitis

Q.7. Resective Osseous surgery
PART - A

1. Discuss the current status of bone morphogenetic proteins and growth factors in periodontal regeneration procedures. 25

2. Discuss in detail non-surgical periodontal therapy. 25

PART - B

1. Current concepts of periodontal dressings. 10

2. Immediate implants. 10

3. Guided bone regeneration. 10

4. Role of LASERS. 10

5. Role of mouthwashes in periodontal therapy. 10
MDS[Periodontology]  
[PART- II]  
Periodontal Diagnosis Therapy and Oral Implantology  
(Paper-II)  
[New Regulations w.e.f. 2018 Admission]

Time : 3 Hours  
Max Marks. : 100

1. Attempt all questions.  
2. No Supplementary Sheet shall be allowed / provided.  
3. The student must write O.P. Code in the space provided on the Title Page of the Answer Book.

- Describe Guided bone regeneration in detail.  
  [25]

- Define Osteointegration of implant. Write in detail about general, esthetic principles for placement of implant in esthetic region.
  [25]

3. Short essays :  
   [10x5=50]
   - Corona virus and Periodontium
   - Maintenance phase
   - Role of Lasers in Periodontal therapy
   - Regenerative osseous surgery
   - Indirect sinus lift procedure
BHABHA UNIVERSITY

MDS-202 (Part II)
Periodontology and Implantology
Paper - II
Examination – June- 2022
Time: Three Hours

Maximum Marks: 100

Instructions: (1) All questions are compulsory.
(2) Illustrate your answers with labeled diagrams wherever required.

Q.1 Long answer questions. (25x2=50)
(1) Classify Interdental Papillary Loss. Discuss Papilla Reconstruction Procedures.
(2) Define Periodontal Regeneration. Discuss Graft Associated Regenerative Procedures.

Q.2 Write Short answers- (10x5=50)
(1) ENAP Vs LANAP
(2) Pocket Maintenance v/s Pocket Elimination
(3) Minimally Invasive Periodontal Surgery
(4) Ailing Implants v/s Failing Implants v/s failed Implants
(5) Guided Bone Regeneration

*****
MDS-202
II. Short Essay: (5 x 10 = 50)

(1) Piezoelectric bone surgery
(2) Recent concepts about halitosis
(3) Chair side diagnostic kits in periodontal diagnosis
(4) Photodynamic therapy in periodontics
(5) Management of periimplant disease
Master of Dental Surgery (Part-II) Examination, 2022
Periodontology
Paper-II: Periodontal Diagnosis, Therapy and Oral Implantology

- Three Hours

Full Marks: 100

Write your Roll No. at the top immediately on the receipt of this Question Paper.

- Attempt all the questions.

1. Discuss the mechanism and control of pathologic bone loss in periodontal disease.

2. Discuss current view on bio film and their hypothesis.

ESSAY:

(25 x 2 = 50)

ORT ESSAY:

(10 x 5 = 50)

3. Horizontal and vertical bone augmentation: Current concepts.

7. Bruxism and Periodontal health

   New classification of periodontal diseases and its difference with old classification.

Importance of soft tissue around Oral Implants: Explain.

Genetic Implications in Periodontics.

xxxxxx
MDS III Year Main & Suppli
Examination, June-2022
PERIODONTOLOGY
PART-II, PAPER-II
Periodontal Diagnosis, Therapy and Oral Implantology

[MDS-307]

Time: Three Hours

Maximum Marks: 100

Note: Attempt all questions.

Long Essay

1. Discuss in detail the application of Lasers in periodontology. 25

2. Enumerate various Perio-plastic surgical procedures. Describe in detail various procedures to increase the width of attached Gingiva. 25

Short Essay

3. Write short notes on:
   (i) DNA probes
   (ii) Chlorhexidine
   (iii) Paoo
   (iv) Effect of occlusion on periodontium
   (v) Management of Peri-Implant Pocket
Time : 3 Hrs 0 mins. Max. Marks : 100

Instructions :-
(1) All questions are compulsory.
(2) Number to the right indicates full marks.
(3) Draw neat diagrams, wherever necessary.
(4) Use single answer book.

Que1. Short Answer Questions

a. Describe the Perioscopy system. 10
b. Elaborate on host modulation therapy with respect to matrix metallo-proteinases (MMPs). 10
c. Describe low level laser therapy. What are its advantages? 10
d. Describe the advantages and disadvantages of immediate implant placement. 10
e. Explain the rationale of ridge split technique in implantology. Describe its advantages and disadvantages. 10

Que2. Long Answer Questions

a. Describe various ridge preservation techniques under following heads:
   (i) Recall the incidence and etiology of ridge defects.
   (ii) Classify ridge defects and explain various techniques used for ridge preservation.
   (iii) Interpret the merits and demerits of currently available bone grafts used for ridge preservation.
   (iv) Analyze the recent advances in ridge preservation procedures. (4+5+7+9).

b. Describe various biomaterials used for Periodontal regeneration under the following heads:
   (i) Recall the role of demogain in periodontal regeneration.
   (ii) Review the role of growth Factors & Pepgen-15 in periodontal regeneration.
   (iii) Interpret the role of BMPs in periodontal regeneration.
   (iv) Analyze the role of Hyaluronic Acid in periodontal regeneration. (4+5+7+9)
Dharmsinh Desai University
Faculty of Dental Science
M.D.S. Part II University Examination

Sub: PERIODONTOLOGY

Day: Wednesday
Date: 18/05/2022
Exam No. 

Total Marks: 100
Time: 10.00 to 1.00

Instructions:
1. Answer all questions.
2. Write neatly and legibly. No marks will be given to the material that cannot be read.
3. Draw examples, Flow charts and Diagrams whenever necessary.

PAPER II

LONG ANSWERS

Q. 2. Discuss step by step management of Complex pocket. (25)

SHORT ANSWERS

(10 X 5 = 50)

Q. 1. Enamel Matrix derivatives
Q. 2. Wilckodontics
Q. 3. Types of autogenous bone grafts
Q. 4. Soft tissue ridge augmentation
Q. 5. Diagnostic Aids in Implantology
Draw suitable diagrams wherever necessary

**Part - A (2x25 = 50 Marks)**
Answer All Questions

**Long Essay:**
1. Discuss the genetic and environmental risk factors for chronic and aggressive periodontitis.
2. Explain surgical anatomy of periodontium and related structures.

**Part - B (5x10 = 50 Marks)**
Answer All Questions

**Short Essay:**
3. Explain the photodynamic therapy in the control of oral biofilms.
4. Describe clinical utility of stem cells for periodontal regeneration.
5. Discuss the evidence based periodontal surgical procedures.
6. Describe the mechanisms and control of pathologic bone loss in periodontitis.
7. Explain refractory periodontitis.

*****
Long Answer the following (LAQ) (2×25=50 Marks)

Q1. Discuss in detail the role of host modulation in periodontal therapy.

Q2. Write in detail about supportive periodontal therapy in periodontal patients.

Q3. Write Short Notes (5×10=50 Marks)

1. Etiology and management of NUG.
2. Diagnosis and management of halitosis.
3. Melchers Concept.
4. Low Level LASER Therapy.
5. Maxillary sinus elevation and its current concepts.

M.D.S. Part-II Examination
Branch II (Periodontology)

Paper II : (Periodontal Diagnosis, Therapy & Oral Implantology)

Date : 28-04-2022, Thursday
Time : 3 Hours

[Max. Marks : 100]

Instructions : (1) Figure to the right indicate marks.
(2) Write legibly.
(3) Draw diagrams wherever necessary.

1. Discuss surgical versus non-surgical periodontal therapy. 25
2. Discuss the adjunctive role of orthodontic therapy. 25

3. Short essay
   1. Probiotics
   2. Low level laser therapy
   3. Stem cells
   4. Periodontal management of diabetic patients
   5. Chemical agents to prevent plaque development 5x10=50
The candidates shall limit their answers precisely within the answer-book (40 pages) issued to them and no supplementary continuation sheet will be issued.

Note: Attempt all questions.

1. What is Osseointegration? Write and discuss in detail factors favouring its success and those that lead to its failure. (25)

2. Discuss the use, advantages and disadvantages of use of bone grafts and GTR membrane for GTR and ridge augmentation. (25)

3. Write short notes on:
   (a) Platform shifting implants.
   (b) Periodontal instrument sharpening.
   (c) Advantages and disadvantages of OPG & CBCT.
   (d) Disadvantages and limitations of Chemical Plaque Control.
   (e) Local Drug Delivery. (10x5=50)
Time: Three Hours  

Note: Attempt all questions.

1. Discuss the current status of anti-microbial agents in the treatment of periodontal diseases.  

2. Discuss the interdisciplinary approaches in the treatment of endo-perio lesion involving the mandibular first molar. 

3. Discuss the following in brief: 
   i) The process of osseointegration and reasons of its failure. 
   ii) Healing after periodontal flap surgery 
   iii) Advances in radiographic and microbiologic diagnostic techniques. 
   iv) Platelet rich concentrates 
   v) Critically evaluate the various aspects of supportive periodontal therapy.
MDS – Periodontology Examination (RSI) – June 2022
Part II
Paper II – Periodontal diagnosis, Therapy and Oral Implantology

Note: All questions are compulsory.

Draw neat, labeled diagrams where necessary.

Your answers should be specific to the questions asked.

Time: 3 hours
Max. Marks: 100

I. LONG ESSAYS

1. Explain the importance of patient education and motivation in periodontal treatment.

2. Discuss the aetiology, diagnosis, and management of furcation involvement.

II. SHORT ESSAYS

3. Ridge augmentation procedures in implant dentistry.

4. Low-level laser therapy.

5. Association between germs and periodontal disease.

7. Risk assessment in periodontics.

Q1. Describe the management of Peri-implantitis. [25]

Q2. Discuss the role of anti-infective therapy in periodontics. [25]

Q3. Write in detail the various bone graft used for treatment of intrabony defects. [10]

Q4. Discuss the concept of Non Incised Papilla Surgery Approach (NIPSA) technique in periodontal surgery. [10]

Q5. Write in detail the treatment of grade III furcation involvement. [10]

Q6. Write in detail the role of growth factors in periodontal regeneration. [10]

Q7. Write in detail the use of PRF in periodontal surgery. [10]
NITTE (Deemed to be University)
(Established under Sec.(3) of UGC Act, 1956)

MASTER OF DENTAL SURGERY (PART-II) DEGREE EXAMINATION
APRIL-2022

Branch: PERIODONTOLOGY

Subject: Paper -II
Subject Code: 18DPER3

Time  3 Hours

Note: 1) Your answers should be specific to the questions.
      2) Draw neat labeled diagrams wherever necessary.
      3) Answer all questions.

I. ANSWER IN DETAIL
   [2 x 25 = 50 Marks]
   1) Discuss the recent treatment modalities in root coverage procedures.
   2) Critical appraisal of osteogenic potential of various osseous grafts in periodontal regeneration.

II. ANSWER IN BRIEF
    [5 x 10 = 50 Marks]
    3) Host modulation therapy.
    4) Ortho-Perio relationship.
    5) Advances in radiographic aids in periodontal diagnosis.
    6) Assessment of primary stability in dental implants.
    7) Periodontal treatment protocol for patients with coagulation disorders.

************
WRITE LONG ESSAYS ON THE FOLLOWING:

1) Discuss the recent trends in the management of Grade II furcation involvement

2) Discuss the recent advances in periodontal diagnosis

WRITE SHORT ESSAYS ON THE FOLLOWING:

3) Implant bone interface

4) Factors governing periodontal prognosis

5) Techniques for harvesting the connective tissue grafts

6) Treatment protocols for HIV patients

7) Current thinking on root biomodification
Roll No………………………………………………………………………………

MASTER OF DENTAL SURGERY THIRD YEAR EXAMINATION,
JUNE - 2022
BRANCH: (PERIODONTOLOGY)

Part- II
Paper- II

Periodontal diagnosis, therapy and Oral Implantology

Time: 3 Hours Max. Marks:100

Note: Illustrate your answer with diagrams, flow charts where ever appropriate. Attempt all questions.

Q.1. Discuss the surgical therapies for advanced furcation involvement [25]

Q.2. Discuss the role of PRF in regenerative periodontics [25]

Q.3 Write short notes on:  [5x10=50]
   a) Microbial analysis in diagnosis of periodontal diseases
   b) Current concepts of Laser assisted periodontal therapy
   c) Tetracycline as local drug delivery
   d) Wilkodontics
   e) Any two surgical techniques for papilla reconstruction
Short Answer Type Questions:

Q.3 Aggressive Periodontitis.
Q.4 Oral Malodour.
Q.5 Peri Implantitis.
Q.6 PRP v/s PRF.
Q.7 Rationale of Periodontal therapy.

Long Answer Type Questions:

Q.1 Critically evaluate the root coverage procedures in detail.

Q.2 Discuss the future directions in measurement of periodontal diseases.
PRAVARA INSTITUTE OF MEDICAL SCIENCES
(Deemed to be University)

MDS Part – II Examination, May 2022
Periodontology
Paper -II

Paper Title: Periodontal diagnosis, Therapy and Implantology

Date: 06\textsuperscript{th} May, 2022

Marks: 100

Time: 9.30 a.m. to 12.30 p.m.

Instructions to candidate:
1. All questions are compulsory.
2. Answer written in illegible handwriting will not be assessed.
3. Write answers on both sides of answer paper
4. Neat diagrams must be drawn wherever necessary.

\textbf{Que 1.} Define and classify endo-periodontal lesions according to 2017 classification. Discuss the diagnosis and management of endo-periodontal lesions.

\textbf{Que 2.} Define Osseointegration. Write the mechanism of Osseointegration in dental implants.

\textbf{Que 3.} Write short notes on
a) Management of medically compromised patients.
b) Anticytokine therapy
c) Papilla preservation flap
d) Photodynamic therapy
e) Ozone therapy in periodontics.
MDS-FINAL YEAR EXAMINATION-2022
PERIODONTOLOGY
Periodontal diagnosis, therapy and Oral implantology.
Paper-II

Time: Three hours
M. Marks: 100

Note: Attempt all questions and draw neat and labelled diagram where required.

Q. 1 Describe the diagnosis and management of Endo-Perio lesions. 25

Q. 2 Discuss the current status of bone morphogenic proteins and growth factors in periodontal regeneration procedures. 25

Q. 3 Write short note on the following: 10x5=50
(a) Periodontal dressing.
(b) Management of gingival recession.
(c) Management of dental hypersensitivity.
(d) Papilla preservation flap.
(e) Immediate implant.
M.D.S. Part-II Examination-2022(II)
Subject: Periodontology
Paper-II
PT DEEN DAYAL UPADHYAY MEMORIAL HEALTH SCIENCES AND AYUSH
UNIVERSITY OF CHATTISGARH

[Time-03 Hrs] [Max Marks: 100]

Note :-
- Draw a neat and labelled diagram where ever necessary.
- Attempt all sub-sections of a Question at one place. Answers attempted
  at different places will not be evaluated.
- No supplementary copy will be given.
- Write only the answer of question asked.

1. Describe the management of peri-implantitis. (25)
2. Describe management of Grade II furcation. (25)
3. Write short notes on :- (10x5=50 marks)
   (A) Describe the importance of initial therapy in periodontics.
   (B) Describe the bone classification schemes related to implant dentistry.
   (C) Describe the radiographical assessment in patients with chronic and aggressive
       Parodontitis.
   (D) Describe the host modulation therapy in periodontics.
   (E) Describe periodontal therapy in female patient
PUNJAB UNIVERSITY

Exam Code: 0741
Sub. Code: 4337

2052
M.D.S. in Periodontology
Part - II
Paper - II: Periodontics Diagnosis Therapy and Oral Implantology

Time allowed: 3 Hours

Max. Marks: 100

NOTE: Attempt all question. Describe with illustrations, wherever necessary.

Long essay type questions:-

I. Discuss in detail the current concepts of regenerative periodontal surgery? (25)

II. Critically discuss the evolution of periodontal flap surgical procedures? (25)

Short essay type questions:-

III. Biology of periodontal wound healing.
IV. Chemical plaque control.
V. Periimplantitis and its management.
VI. Host modulation therapy.
VII. Periodontal splints. (5x10)

x-x-x
Note: Attempt all questions. All questions carry equal marks. Draw neat and well labeled diagrams wherever necessary.

1. **Long Essay:**
   (a) Discuss the role of biomarkers as a diagnostic aid in periodontics.
   (b) Discuss the current concepts and controversies in dental plaque.

2. **Short Essay:**
   (a) Genetic implications in Periodontics.
   (b) Gingipains.
   (c) Effect of smoking in periodontal disease and therapy.
   (d) Pro-inflammatory cytokines.
   (e) Preterm low birth weight children and periodontal disease.
### Examination Question Paper

**Faculty**: Faculty of Dental Sciences  
**Examination**: Programme End Examination - June 2022  
**Programme**: MDS  
**Year**: III Year  
**Module Code**: PGPERIO6G  
**Paper Title**: PART 2 PAPER 2: Clinical Periodontology and Implantology

**INSTRUCTIONS TO STUDENTS:**
1. Write neatly and legibly  
2. Indicate the appropriate question number against your answer  
3. Draw neat, labelled diagrams wherever necessary  

**Maximum Duration**: 3 Hours  
**Maximum Marks**: 100

### IMPORTANT:
You may retain the question paper for future reference

Rajiv Gandhi University of Health Sciences, Karnataka
M.D.S (PART-II) Degree Examination - 16-Jun-2022

Time: Three Hours
Max. Marks: 100 Marks

PERIODONTOLOGY – PAPER-II - (RS-5)
Periodontal diagnosis, therapy and Oral implantology
Q.P. CODE: 6057

Your answers should be specific to the questions asked.
Draw neat labeled diagrams wherever necessary.

Long Essay
2 X 25 = 50 Marks
1. Critically evaluate the merits and demerits of various root coverage procedures.
2. Discuss in detail about the various chair side tests used in periodontal diagnosis.

Short Essay
5 X 10 = 50 Marks
3. Role of lasers in periodontal therapy.
5. Root surface biomodifications.
6. Micro design of implant surface.
7. Photo dynamic therapy.

M.D.S. (Part-II) Examination, 2022
(New Course)
Periodontology
Periodontal diagnosis, therapy and
Oral implantology
Paper - II

Time : Three Hours / [Maximum Marks : 100

Note : Attempt all questions. Two long
questions of 25 marks each & Five short
essays of 10 marks each.

1. Discuss the current status of bone
morphogenic proteins, and growth factors
in periodontal regeneration. 25

2. Evaluate the factors which affects the out-
come of the periodontal therapy. 25

3. Write short notes on the following. 5 x 10 = 50
(a) Management of gingival recession
(b) Immediate implants
(c) Root surface biomodification
(d) Treatment of oral malodor
(e) Papilla preservation flap
Master of Dental Surgery Final Year (Main) Examination (For Batch 2019) (New Scheme)
May - 2022
PERIODONTOLOGY

Paper-II
Time: Three Hours
Maximum Marks: 100

Illustrate your answers with diagrams,
Flow charts wherever appropriate.
Attempt ALL questions.

Long essay questions:
1. Guided tissue based root coverage procedures.  25
2. Various therapies for furcation involvement.  25
3. Short Essay questions:  5 x 10 = 50
   a) Role of anti oxidants species in periodontal defense system.
   b) Treatment of halitosis.
   c) Maintenance schedule for the implant patient.
   d) Automated tooth brushes.
   e) Gingival de-pigmentation techniques.

Part II - Paper 02
Rajasthan University of Health Sciences
SANKALCHAND PATEL UNIVERSITY
M.D.S. – Part-II – EXAMINATION – JULY - SEPT 2022

Specialization: Periodontology
Subject Code: 2DS2020202
Subject Name: Paper II
Time: 3 Hrs.

Instructions:
1. Attempt all questions.
2. Make suitable flowcharts wherever necessary.
3. Figures to the right indicate full marks.

Answer following Long Questions
Q.1 Discuss Ridge augmentation for vertical alveolar ridge defects. 25
Q.2 Discuss in detail about platform switch implants – indication, contraindication and future modifications. 25

Answer following Short Questions
Q.3 Low light LASER therapy. 10
Q.4 Prevention of peri-implantitis 10
Q.5 Biology of wound healing. 10
Q.6 Periodontal dressing. 10
Q.7 Supportive periodontal treatment. 10

***********
MDS – Part – II – Periodontology
Paper – II – Periodontal Diagnosis, Therapy and Oral Implantology

Subject Code : 18-MDS-357
Marks: 100

Time: Three Hours

Note: 1. Attempt all questions
2. Draw labelled diagrams wherever necessary

1. Discuss role and limitations of osseous surgery in periodontics. 
   (25)

2. Discuss the present status and future scope of LASER in periodontics. 
   (25)

3. Write short notes on :
   a. Discuss the role of Biomarkers as a diagnostic aid in periodontics. 
   (5x10=50)
   b. Free gingival grafts.
   c. Recurrence of periodontal diseases.
   d. LDD system.
   e. Rationale of periodontal therapy.

SAURASHTRA UNIVERSITY
EXAM - MDS (PART II)
MAY 2022
SUBJECT – PERIODONTOLOGY
PAPER - II – PERIODONTAL DIAGNOSIS, THERAPY & ORAL
IMPLANTOLOGY

TOTAL MARKS – 100

INSTRUCTIONS -:
1) Attempt all questions.
2) Figure on right indicate total marks of that question.
3) Draw figure wherever needed.

A) LONG ESSAY 50 (25 marks each)
1) Role of growth factors in periodontal regeneration
2) Peri-implantitis and its management

B) SHORT ESSAY 50 (10 marks each)
3) Local drug delivery
4) Write in detail management of grade 2 furcation involvement
5) Considerations and treatment planning for implant placement in esthetic zone
6) Is splinting a panacea? Discuss
7) Critically evaluate papilla reconstruction procedures in detail
Question Paper

SHRI DHARMASTHALA MANJUNATHESHWARA UNIVERSITY
M.D.S Degree Examination-May June 2022
Master of Dental Surgery
PERIODONTOLOGY
Subject: PAPER-II Periodontal diagnosis, therapy and Oral Implantology
QP Code: DP0703
Date of Exam: 02/06/2022 Thursday
Time of Exam: 9:30 am to 12:30 pm
PERIODONTOLOGY-Paper II [DP0703]

Marks: 100
Duration: 180 mins.

Long Essay

Answer all the questions.
1. Draw neat labelled diagrams wherever necessary.
2. Your answers to be specific to the Questions.
3. Read the Questions carefully before you start writing.
4. Please choose Black or Blue colour ink to write the answers.
5. Other colours from the point option can be used for drawings only.
6. Choose yellow colour for text highlighting.

1. Describe guided bone regeneration (GBR) in implantology. (25)
2. Give the clinical implications, etiology and rationale for the treatment of gingival recession. (25)

Short Essay

Answer all the questions.

1. Management of furcation involvement. (16)
2. Role and present day status of chemical plaque inhibitors. (15)
3. Host Modulation therapy in periodontal disease. (15)
4. Discuss the reasons for implant failure. (10)
5. Low level laser therapy (LLLT) (10)

End
Note: - Long Essays Type Questions

Q1. Describe in detail classification and treatment of furcation involvement. (1X25)

Q2. Discuss in detail Non-Surgical periodontal therapy. (1X25)

Q3. Short Essays Type Question (5X10=50)

I. Discuss the treatment protocols in peri-implantitis.
II. Periodontal vaccine.
III. Osteo-inductive bone graft.
IV. Er:YAG Laser in periodontal management.
V. Supportive periodontal therapy.

******************************************
MDS 3rd PROFESSIONAL EXAMINATION, 2021-22
(THEORY, PART-II), MAY, 2022
MDS 302 : PERIODONTOLOGY, PAPER-II

Time : 03 Hours
Maximum Marks : 100

Note:
1. All Questions are compulsory.
2. Your answer should be specific to the questions asked.
3. Marks for each question are indicated.
4. Illustrate your answer with suitable labeled diagrams wherever necessary.

Q.1. Attempt the following questions: (2×25=50)

(i) Discuss the principle and techniques of periodontal microsurgery.

(ii) Discuss the various advanced Implant surgical procedures.

Q.2. Write short notes on the following questions: (5×10=50)

(i) Enamel matrix derivates in periodontal regeneration.

(ii) Infection control during periodontal procedure in COVID-19 era.

(iii) Supportive Periodontal Treatment.

(iv) Role of Supra and subgingival irrigation in periodontal therapy.

(v) Orthodontic treatment of osseous defects.
1. Discuss the current views on 'Periodontal Regeneration'. [25]
2. Discuss the adjunctive role of orthodontic therapy. [25]
3. Write short notes on:
   (a) Discuss the current concepts of Osseointegration
   (b) Distraction osteogenesis
   (c) Application of 'Enamel Matrix Protein' in Periodontics
   (d) Bisphosphonates
   (e) DNA probes

***********************
1. Answer All Questions.
2. Illustrate your answer with suitable diagrams.

**Long Essay Questions:** (2 x 25 = 50)

1. Discuss the contemporary approaches for identifying individual risk for periodontitis.
2. Discuss the factors to be considered in the management of papillary recession. Add a note on the techniques used for papillary augmentation. (10+15)

**Write Short Notes on:** (5 x 10 = 50)

3. Discuss factors affecting osseo-integration of dental implants.
4. Explain the role of "omics" in periodontal diagnosis.
5. Discuss the role of Guided Bone Regeneration in Implant Therapy.
6. Discuss the role of biologic modifiers in periodontal regeneration.
7. Describe Tunneling flap procedures in periodontal plastic surgery.
PERIODONTICS
PERIODONTAL DIAGNOSIS, THERAPY AND ORAL IMPLANTOL OGY
PART II - PAPER II
Q.P. CODE: 4015

Your answer should be specific to the questions asked
Draw neat labelled diagrams whenever necessary

LONG ESSAYS
2 x 25 = 50 Marks

1. Explain the various diagnostic aids used in periodontology.

2. Classify Enamel - Pits lesions. Write in detail about the treatment considerations of these lesions.

SHORT ESSAYS
5 x 10 = 50 Marks

1. Biology of wound healing.

2. Acids.

3. Conventional homograph.

5. Host modulation therapy
Write long essay on the following:

1. Discuss in detail about guided bone regeneration.

2. Discuss the causes of implant failures.

Write short essay on the following:

3. Limitations and scope of preventive periodontics

4. Melcher’s concept

5. Esthetic crown lengthening

6. Bone morphogenetic proteins

7. CBCT in periodontics
SARVEPALLI RADHAKRISHNAN UNIVERSITY, BHOPAL
MDS DEGREE EXAMINATION- JUNE 2022
SPECIALITY: PERIODONTOLOGY

PART- II

PAPER -II
(Periodontal diagnosis, therapy and oral implantology)

TIME: 3 HOURS MAX.MARKS: 100

ANSWER ALL QUESTIONS WITH LEGIBLE DIAGRAMS

WRITE LONG ESSAYS ON THE FOLLOWING: 2X25=50

1) Discuss recent advances in periodontal diagnosis

2) Role of systemic antibiotics in periodontal therapy- discuss current evidence

WRITE SHORT ESSAYS ON THE FOLLOWING: 5X10=50

3) Guided bone regeneration

4) Causes and implant failures

5) Principles of periodontal microsurgery

6) Treatment of grade II furcation involvement

7) LANAP
M.D.S. (PART – II) DEGREE EXAMINATIONS, JUNE 2022

BRANCH V - PERIODONTOLOGY

17MDS522 – PERIODONTAL DIAGNOSIS, THERAPY AND ORAL IMPLANTOLOGY

Time: 3 Hours

Max. Marks: 100

Answer ALL Questions

PART A - (2 × 25 = 50 Marks)

1. Describe the stage of bone healing and Osseointegration in implants-cells kinetics and tissue remodelling.

2. Discuss about the significance of maintenance care in the treatment of periodontitis.

PART B - (5 × 10 = 50 Marks)

3. Micro design of implant.
4. Photodynamic therapy.
5. Occlusal therapy.
6. Role of platelet rich fibrin in periodontal regeneration.
7. Root biomodification.

*****
PERIODONTICS
Paper II

(Etiopathogenesis)

Full Marks : 100

Time : 3 hours

The figures in the margin indicate full marks for the questions

Answer all questions

1. Discuss in detail about the various markers of Gingival and Periodontal disease. 25
2. Write in detail on the periodontopathogenic microorganisms. 25

3. Write short notes on: 5x10=50
   a) Role of occlusion in the maintenance of periodontal health.
   b) Limitations of Non Surgical Periodontal therapy.
   c) Incisions used in Periodontal surgery.
   d) Treatment protocols of Geriatric dental Patients.
   e) Role of Prostaglandins in the progression of Periodontal disease.
MDS (PERIODONTOLOGY) FINAL YEAR EXAMINATION PAPER - II (CLINICAL PERIODONTOLOGY AND ORAL IMPLANTOLOGY)

[Time : 3 Hours] [Max. Marks : 100]

Note: Attempt all the questions. Draw suitable diagrams to support your answer.

(Long Essay) [25 x 2 = 50]

1. Define and classify furcation involvement. Discuss in detail the different treatment modalities of management of Grade II furcation.
2. Discuss the concept of host modulation therapy. Enumerate and describe the different host modulation agents with special emphasis on subantimicrobial dose of doxycycline.

(Short Essay) [10 x 5 = 50]

1. Local drug delivery systems
2. Enamel matrix derivative
3. Management of periimplantitis
4. Minimally invasive surgery
5. Lasers in periodontics

**********
SUMANDEEP VIDYAPEETH
AN INSTITUTION DEEMED TO BE UNIVERSITY

MDS Part-II Examinations June-2022; Date: 08-06-2022
Subject - Periodontology
Paper- II

Max. Marks - 100          Exam Seat No: 318          Time - 3 Hours

Instructions:
1. All the questions are compulsory
2. Write in neat and legible handwriting
3. Draw flow charts and diagrams wherever necessary
4. Number in parentheses at right indicates the marks of the question.

Q. 1. LONG ESSAYS QUESTIONS
50 marks
1. Describe the management of gingival recession
2. Define Plaque Control. Discuss in detail about the role of Chemical Plaque Control in periodontal therapy

Q. 2. SHORT ESSAYS
50 marks
3. Theories of periodontal pocket formation.
4. Periodontal abscess: Clinical features and its management.
5. Halitosis and its management.
6. Role of GTR in Furcation therapy
7. Discuss bone-implant interface.
Course Code: MDS127

PAPER-III  
Clinical Periodontology and Oral Implantology  

Time: 3 Hours  
Max. Marks: 100  

Note: Attempt all questions. Draw neat and labeled diagrams wherever necessary.

I Long Essay  
(25x2=50)  
1. Write in detail about osseointegration. Historic concepts and current concepts.  
2. Write about the effect of Antimicrobial therapy on the microbiota of periodontal lesion.

II Short Essay  
(10x5=50)  
1. Pocket reduction versus pocket elimination.  
2. Healing following surgical pocket therapy.  
3. Minimally invasive surgical therapy  
4. Cumulative interceptive supportive therapy.  
5. Supportive periodontal therapy for patients with gingivitis and periodontitis.
I. Essay: (2 x 25 = 50)

2. Role of Bone grafts in Periodontal Regeneration.

II. Short Essays: (5 x 10 = 50)

1. Classification of Periodontal Instruments.
2. One Stage Full Mouth Disinfection and its role in Periodontal Therapy.
3. Periodontal treatment in Patients with Cardiovascular diseases.
5. Enamel Matrix Derivatives.

*******
MDS ANNUAL - 2022
PERIODONTOLOGY

PAPER II: CLINICAL PERIODONTOLOGY AND ORAL IMPLANTOLOGY

Question number

1. Discuss the current status of Allografts in periodontal regeneration. 25

2. Discuss the physiological, biological and Mechanical complications of dental implants. 25

3. Write notes on:-
   a) Is Periodontal splinting a panacea?
   b) Piezoelectric Bone Surgery
   c) Anti-cytokine therapy
   d) Role of PRF (Platelet Rich Fibrin)
   e) Limitations of Resective osseous surgery

Total 10×5=50
NOTE: Attempt all questions.

1. Discuss the bacterial virulence properties in relation to periodontal diseases. (30)

2. Discuss the evidence based long term predictability of dental implants in a patient with periodontal disease. (30)

3. Write in detail: (20x2)
   a. Mechanism of action of smoking and diabetes as possible risk factor of periodontal diseases.
   b. Relationship between excessive occlusal forces and the initiation, development & exacerbation of periodontal diseases.

##########
Part A: Long Essay

Ques1. What is etio-pathogenesis of trauma from occlusion? Discuss the diagnosis and management of mobile teeth.

Ques2. What are the limitations of Miller's classification from gingival recession defects. Discuss the use of periodontium in the management of gingival recession defects.

Part B: Short Essay

Ques1. Role of Mouthwashes in periodontal disease management.

Ques2. Role of LASERS in periodontal therapy.

Ques3. GTR and periodontal regeneration.

Ques4. Discuss various factors affecting resulting in implant failure.

Ques5. Supportive periodontal therapy.
1. Objectives, variations & steps in papilla preservation technique. [25]

2. Host modulation therapy; What are the present trends. [25]

3. Short Answers: [10×5=50]
   (a) Classify G.T.R. Membrane
   (b) Enamel matrix derivatives in periodontal regeneration.
   (c) ENAP v/s LANAP
   (d) Classify pedical grafts for the treatment of gingival recession.
   (e) Periodontal probes.
22/284-MDS
M.D.S. (Third Year) Examination, 2022
(ii) PERIODONTOLOGY
Paper : II
Periodontal diagnosis, therapy and Oral
implantology
Time : Three Hours ] [ Maximum Marks : 100

Note : Attempt all questions. Two long
questions of 25 marks each and five
short essays of 10 marks each.

1. Recent advancements in Diagnostic Aids. 25

2. Management of Endo-perio lesion. 25

Short Notes :
(i) Photodynamic therapy. 10

(ii) Root Surface Biomodification. 10

(iii) Autografts. 10

(iv) Management of Implant Complications. 10

(v) Growth factors. 10
PART II - PAPER II - PERIODONTAL DIAGNOSIS, THERAPY AND ORAL IMPLANTOLOGY

Time: Three hours
Maximum: 100 marks

I. Write Long Essays on:

1. Discuss diagnosis, classification and management of Gingival Recession.
2. Define osseointegration. Write in detail about the mechanism of osseointegration of dental implants. Add a note on primary stability.

II. Write Short Essays on:

3. Diode Lasers.
4. Platelet rich Fibrin (PRF).
6. Role of growth factors in periodontal regeneration.
7. Factors determining individual tooth prognosis.

*****
VINOBHA BHAVE UNIVERSITY
2019-22

Time: 3 hours
Full Marks: 100

Candidates are required to give their answers in their own words as far as practicable.
The figures in the margin indicate full marks.
Answer all questions.

(Long-answer Type Questions)

1. What are the various phases of periodontal therapy? Discuss, in detail, the supportive Periodontal treatment. 25

2. What is host modulation? Describe the role of host modulation in periodontal disease management. 25

(Short-answer Type Questions)

3. Answer the following questions: 10 × 5 = 50

(a) Peri-implantitis — discuss causes and management.
(b) Guided tissue regeneration
(c) Local Drug Delivery
(d) Role of autogenous grafts in the management of gingival recession defects
(e) Gingival Enlargements and their management
Attempt all questions

1. Plaque control is an essential step prior to any Periodontal surgical procedure- justify. 25

2. Discuss the concept of anti-inf ective therapy in Periodontics. 25

3. Write in short notes on the followings:
   a) Platelet concentrate.
   b) Photophoresis.
   c) Grade II Furcation and its management.
   d) NIPSA technique in periodontal surgery.
   e) Bone grafts in Implantology. (Non incised papilla eury approach)
LONG ESSAY 

1. Write in detail biological considerations of dental implants.
2. Describe plastic surgical procedure for root coverage.

SHORT ESSAY 

3. Enumerate various procedure used for vestibular extension and explain one in detail.
4. Role of patient motivation in preventive periodontics.
5. Critical appraisal of osteogenic potential of various grafts used in the management of periodontal disease.
6. Healing after periodontal flap surgery.
7. Periodontal Dressing materials.
Instructions: Draw neat and labelled diagrams wherever necessary.

Q1) Long Answer Questions (LAQs): [2×25=50]
   1) Discuss the recent development in micro-surgical techniques and its application in Periodontics.
   2) Define Osseous Surgery. Discuss the recent advances in regenerative osseous surgery.

Q2) Short Answer Questions (SAQs): [5×10=50]
   1) Modified Widman Flap.
   2) Allografts.
   3) Implant-bone interface.
   4) Er. YAG laser.
   5) Hyperbaric Oxygen therapy.
